

KBA Training Centre Pte Ltd (KBAT) is now offering the new NEBOSH International Construction Certificate.

KBAT was among the selected few appointed to be the first to conduct this certification, worldwide. The course has been professionally structured to equip personnel working in the safety industry with vital specialized safety training. The training will be delivered over 2 weeks with examinations on the final day.

Course Pre-requisite: IGC1

Contact us for IGC1 registration

Options available:

- IGC1 and IGC2 unitized award
- IGC1 Distance Learning
- IGC1 Final Unit (for previous KBAT candidates wishing to return to complete the unit)

Work in the construction industry can be a very rewarding profession. The world economy is heavily influenced by construction activities and almost everyone has some involvement in construction work during their lifetime. Nevertheless construction remains a very hazardous industry that accounts for a large number of accidents each year. The NEBOSH International Construction Certificate is a specialist professional qualification that allows individuals to gain a good grounding in construction related health and safety and satisfy employers that they are up to the job.
