

FOR PERSONNEL TO MANAGE, PLAN & SUPERVISE CONFINED SPACE OPERATIONS

Course Overview

This course prepares candidates who have been selected or required additional training to be able to manage / supervise confined space operations, writing safe systems of work for confined spaces, write and issue permits to work and write rescue plans to enable candidates to be defined as the competent person by their employer and be a Confined Space Supervisor (Appointed/Authorised Person).

What are the benefits?

Upon successful completion of the course, learners should be able to:

- Understand the legislation/guidance applying to Confined Space work.
- Understand Confined Space Classifications.
- Undertake Risk Assessments for Confined Space work.
- Develop Safe Systems of Work and Safe Methods of Work for Confined Space operations (Including Risk Assessments, Method Statements, Rescue Plans and Permits to Work).
- Select, install and maintain control measures including hygiene procedures.
- Understand the mechanism of atmosphere testing and monitoring.
- Develop, install and maintain emergency plans and procedures.
- Maintain records and documents for Confined Space work.
- Understand and apply the requirements for the selection and training of personnel required to enter and work in confined spaces and be part of a rescue team.

Who should attend?

All personnel who are required to manage, plan and supervise confined space operations, including those personnel required to write a confined space Safe System of Work (Risk Assessment, Method of Works, Rescue Plan) and prepare and issue Permits to Work for confined space entry.

NOTE: This course is **NOT** suitable for any persons who **MAY HAVE** to enter a confined space; it does **NOT** train or certify a person to enter a Confined Space.

Course Duration

Delegates will need to complete one day training (full time).

Certification

Delegates who have attended and successfully completed the course will receive a certificate — issued by IOSH.
