

IMCA DIVER MEDIC TECHNICIAN & REFRESHER COURSE

An Essential Skill that can Save A Life

Diver Medic Technician Course

This IMCA Approved Course provides participants with the skills, knowledge and the confidence to administer the Life Support techniques learnt during the training effectively and safely. Attendees will be taught how to assess the casualty promptly and provide resuscitative measures with up to date emergency first aid equipment. This course will provide the attendees with IMCA approved DMT certification that is recognised internationally.

Who should attend?

Anyone can attend the course, irrespective of their background and qualifications. However, IMCA-Recognised certificates shall only be issued to students who meet the following criteria:

- ◆ The student must hold an offshore qualification in diving. This can be an LSS, LST, Diving Supervisor, or Diver qualification recognised by IMCA (which is at an offshore grade).
- ◆ The student must hold a valid diving medical suitable to go under pressure in a chamber. Sports diving medicals are not acceptable.

Course Objectives

To train commercial divers to be certified IMCA Diver Medics. It is a known requirement by IMCA to have one member of a dive team who is not diving, other than the supervisor, trained in advance first aid - generally referred to as a 'diver medic'.

At the end of the course, delegates will be able to

- ◆ Perform Basic Advanced Cardiac & Trauma Life Support.
- ◆ Understand the Medical, Legal & Ethical aspects of a DMT.
- ◆ Correct handling & assessing of patients with diving related injuries in a Hyperbaric Chamber.

Duration

2 Weeks (Full DMT Course) – 60 Contact Hours **OR** 1 Week (DMT Refresher Course) - 30 Contact Hours

How is it assessed?

The course is assessed by:

1. A multiple-choice paper
2. Assessment on Practical Scenarios

Delegates, who attend and successfully complete both the practical and written assessments will be awarded DMT certificate, which is approved by IMCA. A minimum pass grade of 75% is required for certification.

This course is also presented as an in-company package.
