

NEBOSH Safety Simplified

THE EVERYDAY SOLUTIONS FOR WORKPLACE HEALTH AND SAFETY ISSUES

Course Overview

Safety Simplified provides an ideal introduction to health and safety, and there are no entry requirements. Through a robust learning experience delivered over three days, Learners will gain lots of practical hints and tips and will return to their workplaces with ideas and tools they can put into practice immediately.

Who should attend

Safety Simplified is ideal for anyone who is looking for an introduction to health and safety issues in the workplace and risk assessment. This may include team leaders and supervisors, HR professionals, facilities managers and those training young people in a working environment.

Course Content

The content of this course is covered in TWO units:

UNIT SS1: General Health and Safety Awareness

UNIT SS2: General Workplace Risk Assessment

Duration 3 days (full time)

Benefits for learners

Safety Simplified looks at everyday solutions for general workplace health and safety issues. When you have completed the course, you will be able to:

- make a case for managing health and safety including recognising what good health and safety management looks like;
- do a general risk assessment in your own workplace – inspecting the workplace, recognising a range of common hazards, evaluating risks (taking account of current controls), recommending further control measures and assigning actions;
- understand why incidents happen and how to investigate them; and
- help your employer to check their health and safety management system effectiveness – through monitoring, audits and reviews.

Benefits for employers

When you have passed the course, you will be a huge asset to your employer. You will make a real difference in the workplace. You will have the knowledge, understanding and skills to help protect the health and safety of all workers. You will also be able to help your employer to comply with the law and good practice, as well as help them avoid the huge costs from incidents and ill-health.

Assessment and Certification

Candidates are assessed by one multi-format examination (30 minutes) and a practical risk assessment (1.5 hours). Upon successful completion and passing of both assessments, learners will be awarded the NEBOSH Safety Simplified e-Certificate. Certification is issued by NEBOSH UK.

In-House Training

This course can be tailored to reflect your organisation's system of work. It can also be presented as an in-company package at your company's facility and/or preferred location. For further details such as corporate rates and schedules, please [contact us](#).
