Course Overview

For candidates to acquire knowledge and practical skills to manage competently, the health and safety issues at their workplace and to international accredited levels.

Course Objectives

- Apply basic management principles and practices to health and safety issues as part of a total business strategy
- Set practical health and safety objectives, plan and implement courses of action to achieve those objectives
- Recognise safety and health hazards present in the workplace
- Ensure adequate information, training and supervision is provided
- Investigate incidents and take remedial action
- Understand and implement their legal responsibilities

Assessment

The course is assessed by:

- A short written/objective multiple-choice paper.
- A workplace based written assignment.

Certification

Delegates who successfully completed both the practical and written assessments will be awarded the Managing Safely certificate, issued by Institute of Occupational Safety and Health (IOSH) in the UK.
